## Ophthalmoscope and Retinoscope - Combined.

An up-to-date instrument for the diagnosis of the pathological  
condition of the interior of the eye without the use of a dark room or  
irradiations to dilate the pupil. By its use all errors of refraction are  
detected and measured to an absolute certainty, without asking the  
patient any questions—thereby leaving the operator independent of  
the intelligence of the patient. (Great for children). It is the latest  
and most wonderful production of optical science. By its use the re-  
sults of the examination of the eye are seen as clearly as the patient's face. This  
is a costly instrument, but as I have been always deeply interested, and  
as a specialty of examining and fitting of glasses to the eye, I have  
acquired up-to-date with the latest and best methods and instruments and  
am confident that they will get the latest and best service obtainable anywhere  
derived from long years of practical experience with up-to-date ap-  
paratus and for the least money. Respectfully,

M. D. KELLY,

Over 30 Years an Optician and Jeweler; 15 Years a Graduate  
Optometrist. No. 8 Main Street, opposite Court House.

## FALL

## MILLINERY OPENING

Miss Fannie B. Rogers', No. 210  
South Main Street,

Wednesday, September 28th.

Tailored Hats, Patterns

All other Up-to-Date Millinery  
goods will be on display. The  
Ladies are especially in-  
vited.

Charged With Robbery.

Willie Wallace, col., was arrested  
Wednesday near Julien, charged  
with having robbed Ches. Bassell,  
col. Bassell claims that Wallace  
knocked him down with a rock and  
took his purse, but when he saw  
other parties coming up, he threw  
the pocket book down and ran.

Wm. Van Dalsen, the murderer  
of his mistress, Fannie Porter, in  
Louisville, has confessed his crime  
and is believed to be also implicat-  
ed in a murder of four years ago.  
Louisville is getting a very unsav-  
ory reputation for lawlessness. It  
is, if possible, worse than Cincin-  
nati.

## HOBBY WITHDREW

And Richardson Was named on  
First Ballot in Third District.

Scottsville, Ky., Sept. 20.—James  
M. Richardson, of Warren county,  
and at present a member of the  
State Prison Commission, was  
nominated for Congress tonight by  
the Third district Democratic con-  
vention on the first ballot, by a vote  
of 54 to 45 over N. A. Porter, of  
Warren county.

W. J. Gooch was elected chair-  
man by a combination of the Rich-  
ardson and Hobby forces and re-  
cognized Richardson delegations in  
the counties of Allen and Todd.

The real fight was in the meet-  
ing of the committee on credentials,  
which was in session four hours.  
There was little dispute as to the  
Allen delegation. Chairman Goad,  
of the county Democratic committee,  
stated before the credentials com-  
mittee that he had signed the cred-  
entials of the Richardson delega-  
tion this morning because he was  
confident that Richardson had a  
majority of the votes in the county  
convention, although he was a Por-  
ter man. The recommendation that  
the Richardson delegation be seated  
was unanimous.

In the Todd contest S. W. Porgy  
represented the contestants and S. Y.  
Trimble the regular delegation.

Each side charged the other with  
repeating and voting its men in the  
county convention many times.  
Several witnesses were heard on  
both sides. After considerable  
wrangling a motion was made that  
the contesting delegation be seated.  
This was lost by 4 to 6.

On a call for nominations Ed J.  
Hobby, of Simpson county, present-  
ed the name of James M. Richard-  
son, and W. R. Gardner placed in  
nomination N. A. Porter. A call of  
the counties showed that Richard-  
son had 54 votes and Porter 45.  
Mr. Porter immediately moved that  
Mr. Richardson's nomination be  
made unanimous.

## GENERAL ATTACKS

Regarded as Likely at Port Ar-  
thur and Mukden.

Port Arthur is again the center  
of attraction as regards the war in  
the Far East. A general attack  
by land and sea is regarded as  
likely to follow the Japanese as-  
sault upon the redoubt protecting  
the water supply of the fortress and  
town, and participation of the fleet  
under Admiral Togo is expected.

Eight and possibly nine Japanese  
divisions are reported to be  
advancing on Mukden, and another  
battle between the armies under  
Gen. Kuroki and Gen. Kuropatkin  
is imminent. St. Petersburg has  
heard that the Russian Baltic  
squadron has been re-inforced by  
four warships purchased from Ar-  
gentina.

## ARMENIAN MASSACRE.

Laytonville Doctor Will Lecture  
At Court House.

D. H. Erkelanian, A. B. M. D., a  
native Armenian, who has been a  
practicing physician at Laytonville  
for a year or more, will deliver a  
lecture under the auspices of the  
Christian County Medical Society,  
at the court house on the evening  
of Sept. 30, at 8 o'clock. His sub-  
ject will be The Massacre of Chris-  
tians in Armenia by Turks in 1895,  
of which he was an eye witness.  
In four hours 100,000 Christians  
were put to death. Admission is  
free.

## PEMBROKE HORSE SHOW.

Is In Session Today and Closes  
To-morrow.

The first horse show given by the  
Pembroke people is being held to-  
day and tomorrow. The grounds  
fitted up for the show contains 3 1/2  
acres and there is a track several  
hundred yards in length. The  
grandstand is commodious and  
comfortable and the entries indi-  
cate a strong line of exhibits.

## REGISTRATION OCT. 4.

Election Officers Will Conduct  
The Registration.

A list of election officers is pub-  
lished today and in five precincts  
in Hopkinsville, two in Pembroke,  
two in Crofton, one in Lafayette and  
one in Gracey the same officers  
named for the election will conduct  
the registration of votes under the  
new certificate registration law  
October 4. The polls must be kept  
open from 6 a. m. to 9 p. m. and all  
voters, except the sick and absent,  
who fail to register will lose their  
votes in November.

M. W. HOWARD.

Will Be the First Speaker of the  
Campaign.

Ex-Congressman M. W. Howard,  
of Alabama, has made an appoint-  
ment to speak at the court house in  
this city at 7:30 o'clock tomorrow  
night, in the interest of the Watson  
and Tibbles Populist ticket. Mr.  
Howard is a man of ability, but is  
on a cold trail this time. Everybody  
opposed to Roosevelt will this year  
vote for Parker for President.  
There are no Populists in this part  
of Kentucky.

## OPENING OF CAMPAIGN

Places Where Appointments Will  
Be Made For Speaking.

Louisville, Ky., Sept. 20.—The  
Democratic campaign committee  
states that the campaign in Ken-  
tucky shall be started October 3, at  
the following towns: Burlington,  
Paris, Hopkinsville, Frankfort,  
Greensburg, Haysville, Nunnford-  
ville, New Castle, Clinton, Mad-  
isonville, Russellville, Richmond,  
Lebanon, Benton, Taylorsville,  
Brandenburg, Harrodsburg, Fal-  
mouth, Georgetown and Williams-  
town.

## D. C. HERRICK

Will Lead The New York Dem-  
ocrats to Victory.

Harmonious Outcome of the Sara-  
toga Convention This  
Week.

Saratoga, N. Y., Sept. 22.—The  
New York Democratic convention  
adjourned at Saratoga yesterday  
afternoon after nominating by unan-  
imous action a state ticket headed  
by Justice D. Cady Herrick, of  
Albany, for Governor. Justice Her-  
rick was agreed upon as a com-  
promise candidate, and the convention  
was harmonious throughout. A  
notable feature of the convention  
was the disappearance of all open  
evidences of the factional warfare  
between Murphy and McCarren and  
their respective adherents. The  
convention was large and notably  
enthusiastic.

The platform adopted includes  
a direct personal attack upon Gov.  
Odell, as well as a denunciation of  
the Republican Administration, an  
endorsement of the Democratic na-  
tional ticket, platform and resolu-  
tions, and strongly worded discus-  
sions of State and National issues  
from the Democratic point of view.

## GRACEY GLEANINGS.

Hunting Club Preparing For Fall  
Outing—Other Items.

Gracey, Ky., Sept. 22.—The Gra-  
cey Hunting Club is figuring on  
another outing this fall. The pres-  
ident of the club is already in cor-  
respondence with parties in Missis-  
sippi and the hunt will likely be  
taken in that state during the latter  
part of November. Bear, deer and  
other large game is reported plen-  
tiful this season.

Mr. C. H. Krentz left for St. Louis  
Tuesday to visit the fair. Mrs.  
Krentz accompanied her husband  
as far as Little Cypress, Ky.,  
where she will visit Mr. and Mrs.  
P. P. Mason during his absence.

Mr. J. P. Meacham and family  
have returned from a visit to the  
family of Mr. B. B. Nance, near  
Pee Dee.

Mr. W. J. Hopson, of the firm of  
Hopson Bros., has returned from  
St. Louis, where he purchased fall  
goods and attended the fair.

Dr. D. E. Bell has returned from  
a sojourn of a week at Dawson  
Springs.

## WICKS-PARKER.

Former Hopkinsville Boy Weds  
Woman of Texas.

Mr. James H. Wicks, formerly of  
this city, but now of Decatur, Ala.,  
and Miss Netalee Parker, of Fort  
Worth, Tex., were married in St.  
Louis Tuesday. Mr. and Mrs.  
Wicks arrived here Wednesday,  
and after a visit of a few days to  
friends and relatives, will go to  
Decatur to reside. The groom is  
special agent of the L. & N., and is  
a brother of Mr. W. R. Wicks, dep-  
uty county clerk.

His bride is well known here,  
having spent last summer in the  
city visiting friends, and it was  
here that she and Mr. Wicks first  
met.

## NORTH CHRISTIAN

Citizens Petition for Rural Free  
Delivery.

A petition, numerously signed by  
citizens living along the proposed  
rural route out of Crofton, has been  
forwarded to the superintendent of  
rural free delivery routes at Wash-  
ington, D. C., asking that a route  
be established. The new route  
would extend west from Crofton to  
the Consolation neighborhood,  
thence to a point near Macedonia  
and back to Crofton, a distance of  
about 24 miles. Population to be  
served about 500.

## Ayer's

Impure blood always shows  
somewhere. If the skin, then  
boils, pimples, rashes. If the  
nerves, then neuralgia, nerv-  
ousness, depression. If the  
stomach, then dyspepsia,  
biliousness, loss of appetite.  
Your doctor knows the  
remedy, used for 60 years.

Returning from the Cuban war, I was a  
perfect wreck. My blood was bad, and my  
health was gone. But a few bottles of Ayer's  
Sarsaparilla completely cured me.

## TWO UNIONS FORMED.

Messrs. McCown and King Visit  
Lafayette and Roaring Spring.

Messrs. F. B. McCown and M.  
B. King were at Lafayette and Roar-  
ing Spring Wednesday and organized  
local unions of the Society of Equity  
at both places. At Lafayette a strong  
union of 20 members was formed,  
with Walter E. Garner president and  
O. A. Elliott, secretary. At  
Roaring Spring Thos. E. Cran-  
shaw is president and Wick Daw-  
son, secretary. The Lafayette  
union appointed three delegates to  
attend the Tobacco Growers' Con-  
vention at Guthrie to-morrow. Mr.  
McCown will go to Guthrie and  
some of the leading officials of his  
Society are expected to be there  
and co-operate with the farmers'  
meeting.

Mr. McCown will organize a  
Union at Gracey on Sept. 30, at 2  
p. m. There are now six local  
unions in Christian county.

## Carroll Grant.

W. H. Carroll and Mrs. Pleasant  
P. Grant, of the Consolation coun-  
ty, were married Wednesday  
afternoon. Rev. W. E. McCord  
officiated.

## COLD WEATHER

Will be on us in a few  
more days and you  
will need a heating  
stove. Before buying  
you are urgently re-  
quested to call and  
see my INCANDES-  
CENT ST. CLAIR. It  
is the best stove ever  
brought to Hopkins-  
ville and decidedly the  
handsomest in ap-  
pearance. It is so con-  
structed that it will  
burn slack equally as  
well as the best lump  
coal, and will save  
you enough in 3 sea-  
sons to pay for itself.  
Space will not permit  
me to say more about  
it, but if you will give  
me five minutes time  
and I do not convince  
you that it is the best  
stove on the market  
and all I claim for it,  
I will make you a  
present of one.

Respectfully,

## Jack Meador.

### Ringing Appeal to Tobacco Planters.

#### The Meeting at Guthrie To-Morrow Most Important In Fight Against Trust.

About two years ago a new grocery store opened in the old "Fellow's" building, under the name of M. E. Edmundson, with the choicest groceries, fruits and vegetables. We have been able to give liberal patronage of appreciative customers to make both ends meet. To them we return our sincere thanks and promise to do our best in the future to retain their confidence.

The permanent success of any business depends upon the confidence and good opinion of the public. No business can succeed that makes dissatisfied customers. We work and plan to give our customers that we sell give absolute satisfaction in quality and price.

Now, just a word to those who voluntarily promised us at least a share of their patronage. While we have been somewhat disappointed in not having the pleasure of adding your names to our list of customers, we are still anxious to secure your grocery patronage. "This true stock is small, but it is always good and is kept clean and up-to-date, because we order fresh groceries every week to replace reduced stock. Come in and inspect our goods and our mode of doing business, and if you are satisfied we will certainly appreciate your patronage."

We also extend a cordial invitation to our country friends, many of whom perhaps will learn for the first time, on seeing this advertisement, that we are in the grocery business. Give us a trial order and we will guarantee to please you.

Fair prices, pure groceries, courteous treatment, straight-forward dealing and prompt delivery is the plan we have adopted for this store. "Phone us—either 'phone'—and we will gladly supply your wants. Tom Edmundson can always be found behind the counter ready to wait on the trade. Claud Sisk, clerk, would be glad to have all his friends call."

Respectfully,  
M. E. EDMUNDSON.

## NOTICE!

The people of Christian county, Ky., will take notice that the Fiscal Court of said county will meet at their usual and customary place of meeting, in the city of Hopkinsville, county of Christian and state of Kentucky, on Tuesday the 15th day of October, 1904, for the purpose of issuing new county relief bonds to be sold for the purpose of obtaining money with which to pay off all outstanding bonds against said county, of issue of the year 1897, amounting to \$81,000, and which said bonds were issued to refund a then existing railroad bonded debt of \$100,000 and which said original bonds were of date July 1st 1896. The terms and conditions of said new bonds will be fixed and determined by said Fiscal Court at said time and place.

Done by order of the Christian County Fiscal Court, made this day, This September 26d, 1904.

### Commissioner's Sale.

Christian Circuit Court, Kentucky.  
Charles F. Jarrett & wife  
Against  
Susan A. Jarrett's Trustee

By virtue of a judgment and order of sale of the Christian Circuit Court, rendered at its October 1903 term thereof, 1904, in the above cause, I shall proceed to offer for sale, at the court house door in Hopkinsville, Ky., at the highest and best bidder, at public auction, on Monday, the 3rd day of October, 1904, between the hours of 11 a. m. and 1 p. m. (being county court day) upon a credit of one and two years, the following described property to-wit:

A certain tract or parcel of land, containing 220 acres, more or less, and situated on the north side of the Canton pike in the southwestern portion of Christian county, Ky., and about 7 miles from the city of Hopkinsville, and bounded as follows to-wit:

"Beginning at a stake in the middle of the Canton pike, near the east edge of a hedge, corner of said C. F. Jarrett, formerly corner of Dudley McComb; thence N. 8 1/2 W. 204 1/2 poles to a stake in Green's line; thence with said line S. 61 W. 142 1/2 poles to a stake in a line of a survey said Green purchased of Harry; thence with said line S. 2 W. 277 poles to a stake; thence two black jack pointers, Green's corner; thence with another of his lines S. 40 1/2 W. 45 poles to a stake in the middle of the Canton road; thence to No. 1; thence with the middle of said road, in an easterly direction to the beginning;" and being all that portion of a tract of land of 339 acres situated on the north side of the Canton pike, which said 339 acres was conveyed to said Susan A. Jarrett's Trustee, by John W. Campbell, commissioner, by a deed of record in proper office. Said land is sold for the purpose of re-investment.

For the purchase price, the purchaser must execute bond with approved surety or sureties, bearing legal interest from the day of sale until paid and giving the force and effect of a replevin bond. Bidders will be prepared to comply promptly with these terms.

Master Commissioner.

A noted Tennessee editor has said that "Every dollar earned by the farmer represented so much 'canned sweat.'" The Bible tells us that man must go forth and "earn his bread by the sweat of his brow," and I believe every word of this.

Then I am prepared to say that it takes more sweat, and honest sweat too, to make tobacco than any other product on the farm. Then why should he not be protected? Self-preservation was the first law given to man, and will sit idly by and see even the laws of nature taken from him?

The tobacco magnates who have combined their interests to destroy competition, to which the tobacco growers of the Clarksville district are justly entitled, by all the laws of God, nature and man, are exacting from these farmers, annually, from two to five million of dollars of "canned sweat."

What are we going to do about it? Sit supinely still and deliver this "honest sweat" to these sons of greed, who are increasing their fortunes year by year, from spoils unlawfully and unfairly gotten from the sons of toil?

There was never an industrial situation in any country or clime worse than that which confronts us. Bret Harte's lines to the heathen Chinese may be appropriately applied to that we call the "tobacco trust."

"For ways that are dark  
And tricks that are vain,  
The tobacco trust is peculiar."

This organization does business behind closed doors. The secrets of its councils are sacred. So sacred, indeed, that I am reliably informed that recently when a piece of information valuable to farmers leaked out, the trust could not on certain which one of ten men was responsible, and the whole ten were "bred."

And yet the organization has its hired men constantly prying into the affairs of the farmer to ascertain the situation from their end of it. They begin to inspect the tobacco while it is growing in the fields, and to apply the "pump" to the farmer for information. They follow it to the barn and inspect it there, still applying the "pump" to the farmer. The result is, that when selling time comes, the trust through its agents, knows all about the farmer's affairs and the farmer is in the dark. He has to beg the agents of the trust to come and look at the tobacco with a view of buying. The truth is, the agents do not need to look at it. The record of his crop is tucked away in some pigeon hole. The agent gets his order from the man who has the record. He has no competitor in the field. It is easy sailing. The records have been examined. The decree has gone forth that so much "canned sweat" must come from the sons of toil and come it must.

We are forced into a race with one another to sell our tobacco to "people who have cut out" the race to buy. The racers in the buying have met and agreed on a division of the "canned sweat."

They laugh at the race of the sons of toil to sell, and murmur to themselves, "poor ignorant fools, the price of your tobacco is already fixed, now race for your lives."

Fellow farmers we must "cut out" this race for ourselves; we must meet this one-man power. Everybody agrees that organization is the proper thing, but we are met on every hand with the statement that "farmers haven't the sense to organize and cannot organize."

Why not? Compare yourselves with those who have organized. The miners, who dig wealth from the bowels of the earth, have organized; the carpenters, who fashion articles of usefulness from the forests of the world, have organized; the railroad men, who direct the currents of commerce, have organized; the painters, who work to beautify and preserve what others have completed, have organized;

all classes of men have organized; it is an age of organization.

The farmer stand, solitary and alone, fighting life's battle single handed in the grim arena of a greedy world. Everybody he sells to is organized; everybody he buys from is organized. Can every body organize except the farmer? Must he struggle, solitary and alone, "graed, gloomy and peculiar, wrapped in the solitude of his own" dullness and inferiority?

I say they can and will organize. They have not organized heretofore because they have not been aroused to the situation which confronts them. They are aroused now. From every quarter comes the battle cry: "Organize!" Let me urge every farmer to come to Guthrie on Sept. 24 and refute the slander on his intelligence and show to the world he can and will organize.

The history of the world shows that the farmers have always done their duty with a Spartan courage when the hour and the issue demanded it. They demand it now. Show your courage. Show your intelligence. Do your duty to yourselves, your families, your posterity, and your country. Arouse yourselves, my fellow countrymen, bare your breasts and to the coward and say:

"Breathes there a man with soul  
Who never to himself hath said  
This is my own, my native land."  
CLARK H. FORT, President  
Clarksville District  
Tobacco Growers' Ass'n.

### Abcess.

W. H. Harrison, Cleveland, Miss. writes: "I will say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abcess to form in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's store, (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment. I got a 50c size, and it cured my leg. It is the best liniment in the world."

Abcesses, with few exceptions, are indicative of constipation or derelict. They may, however, result from blows or from foreign bodies introduced into the skin or flesh, such as splinters, thorns, etc. Sold by R. C. Hardwick.

### HEAD SEVERED

From the Body of Woman in Louisville.

Louisville, Ky., Sept. 19.—The dead body of Mrs. Fannie Porter, aged 25, was found tonight in a room over Eckler's saloon at Jackson and Market streets. The head was severed from the body. The police suspect W. Van Dalsen, with whom, it is alleged, the woman had been living. The man washed the blood from his hands and also from the razor which he used in his bloody work and then fled. He was captured today. Jealousy was the only motive assigned for the crime.

### Beautiful Women.

Pump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. See Mrs. William M. Stroud, Midlothian, Texas, writes, May 31, 1904: "We have used Herbine in our family for eight years, and find it the best medicine we ever used for constipation, bilious fever and malaria. Sold by R. C. Hardwick."

### BEAUTIES OF HOLY LAND.

The Sun is the Magician That Turns the Dull Earth to a Picture of Splendor.

In the Sunday Magazine, of London, Archdeacon Sinclair, who was there recently, gives a glowing description of Palestine.

"I was struck," he says, "by its special and wonderful beauty. The sun is the magician of the Holy Land, painting its plains and hills with the loveliest hues and lighting up all with magnificent splendor at sunrise and sunset. The country is far more mountainous than I had realized."

"Then, again, there was great beauty in the fountains and streams, pure and clear, from a limestone country, and sometimes flowing with great freedom."

"Perhaps the crowning feature of beauty in the north of Palestine are the glorious snow-clad slopes of Mount Hermon, which can be seen from the top of every pass among the hills, glittering and gleaming in the pure blue vault."

The flowers particularly struck Dr. Sinclair, who finds it impossible to do justice to their beauty and brilliancy.

Mineral Oil in India.  
The production of mineral oil in India has made remarkable strides during the last decade. In 1897 the output amounted to only 19,100,000 gallons, whereas in 1902 it had increased to 56,607,000 gallons. In 1903 this production trebled its output from 18,000,000 to 54,000,000. These large quantities notwithstanding, nearly two-thirds of the consumption is still supplied from abroad—London Engineer.

Cancer Cured By Blood Balm—All Skin and Blood Diseases Cured.

Mrs. M. L. Adams, Fredonia, Ala., took Botanic Blood Balm, which effectually cured an eating cancer of the nose and face. The sores healed up perfectly. Many doctors had given up her case as hopeless. Hundreds of cases of cancer, eating sores and suppuring swellings, etc., have been cured by Blood Balm. Among others, Mrs. B. M. Guernsey, Warrior Stand, Ala. Her sore throat was raw and beef, with offensive discharge from eating sore. Doctors advised cutting, but it failed. Blood Balm healed the sores, and Mrs. Guernsey is as well as ever. Botanic Blood Balm also cures eczema, itching humors, scabs and scales, bone pains, ulcers, offensive pimples, blood poisoning, carbuncles, scrofula, rashes and bumps on the skin and all blood troubles. Druggists, \$1 per large bottle. Sample of Botanic Blood Balm free on request by writing Blood Balm Co., Atlanta, Ga. Describe trouble and special medical advice will be sent in seal.

## THE LAND FOR FAT WOMEN

In the Moor Country Bait Rather  
Than Symmetry Is the Mark  
of Beauty.

In England and America the fat  
woman has never been considered  
very attractive. Admiration has  
gone to the slender woman, even to  
the one with the waspish waist-  
ed in as small as the stomach,  
liver and a few other superfluous  
organs will allow. But the fat  
woman has been passed by and her  
more slender, gracier sister has  
carried off the laurels for beauty  
of feminine figure.

But over in the land of the Moors  
things are exactly reversed. There  
the fat woman reigns supreme.  
The slender woman is passed by  
with a look of pity, says Medical  
Talk.

According to the Moorish idea  
of beauty, a really handsome wom-  
an ought to be so fat that she can-  
not walk. The fatter she is, the  
more beautiful she is considered.  
If she can attain two or three hun-  
dred pounds of flesh she is consid-  
ered a dainty morsel for the sul-  
tan, and is the envy of all her sex.

The Moorish shape, if shape it  
can be called, approaches the per-  
fection of feminine beauty when it  
resembles or rather exceeds the  
circumference of a barrel, or some  
other large measure.

What a paradise for the fat  
woman. There she can eat and  
drink and feast to her heart's con-  
tent, denying herself nothing, liv-  
ing an easy, indolent, luxurious  
life, with no horror of accumulating  
fat, but rather rejoicing in it,  
for every pound of superfluous fat  
she can gain only adds that much  
to her beauty.

There the ambition of a woman  
is to get fat. She spends no time  
trying to reduce her waist mea-  
sure with harmful corsets, but she  
lets it expand and go its own sweet  
way. Physical culture she would  
regard as an enemy to beauty, and  
to take Turkish baths, and diet  
herself, would be considered the  
height of folly. She wants to be  
beautiful, and to be beautiful she  
must be fat.

It seems strange to have things  
so much reversed. But it may be  
some satisfaction to the over-  
curled American woman to know  
that there is at least one place on  
the globe where the fat woman has  
her inning against the slender  
woman.

## THE SCARCITY OF HEROES.

Not Everyone Who Goes to War,  
Says a Certain Military  
Gentleman.

In addressing the class of cadets  
which recently was graduated  
from the military academy at West  
Point, Gen. James R. Carnahan, of  
Indianapolis, a member of the  
board of visitors, tried to impress  
upon the graduates that they were  
not heroes, relates the New York  
Tribune.

"In all the world's history," he  
said, "there have been only two or  
three heroes, but there have been  
many good soldiers. Now that  
you are entering the army, you can  
take to heart the spirit of this lit-  
tle incident of the Santiago cam-  
paign, when war correspondents  
were making heroes as fast as they  
could write.

"It was the afternoon of the bat-  
tle, and a young woman came upon  
a soldier who was returning to  
camp badly wounded.

"Are you one of the heroes?"  
she asked.

"Lord, no, miss. I'm no hero  
—just one of the Sixth regulars."

## Dig Day and Night.

Treasure hunting has become  
the principal occupation of the is-  
landers of Martinique. They dig  
day and night among the ruins  
caused by the eruption of Mont  
Pelée for gold and other valuables.

## Eternal Wrangle.

First Soubrette—I am engaged  
to star in 'Beauty and the Beast'  
next season.

Second Soubrette—Indeed! And  
who have they engaged for the  
Beauty?—Chicago Daily News.

## Great Penetration.

The modern bullet will pierce  
the carcasses of three horses in suc-  
cession at 550 yards; of four at  
half the distance; and one will kill  
a man after passing through the  
trunk of a thick tree.

## Guilty Conscience.

The sultan has forbidden the  
wearing of red blouses by Ar-  
menian women. The color is believed  
to symbolize the bloodshed in  
their country.

## CAN'T SEE EMPTY SEAT.

What a Disagreeable Man Says About  
Woman's Shortightedness  
on Street Car.

"I'd like to know why it is that a  
woman can't see an empty seat on  
an open car when it's starting  
her in the face," said a disagree-  
able man, grumpier than usual un-  
der the influence of the heat, re-  
lates the New York Sun. "I've had  
to ride all over town on surface  
cars a good deal this summer and  
I've seen cars delayed time and  
again by the apparent stupidity of  
women who couldn't find a seat.

"Of course, a woman can't travel  
along the footboard like a man,  
but why, after she has taken  
plenty of time to survey a car  
which is only half-filled, will she in-  
stinctively climb into a row where  
she either has to stand up until  
some perspiring man gives up his  
seat to her, or else squeeze in  
where she has to sit on the edge.

"You can't expect a conductor  
to be continually acting as usher,  
but unless he does most women  
seem to lose their heads. I'm not  
one that always cracks up the su-  
periority of my own sex, but in  
cars the average man shows sense  
and the woman doesn't.

"The man will have his seat  
picked out before the car stops.  
He has no trouble in picking out  
the empty spaces in the car. But  
nine out of ten women go all to  
pieces the minute the car stops.  
After a woman has done a few laps  
alongside the car looking for an  
empty seat, it's dollars to dough-  
nuts that she will pick a full one  
and pass right by one that's got  
much room in it.

"Seems to me that the street car  
companies would confer a great  
benefit on their male passengers  
if they'd employ men to act as  
ushers for the women on open cars  
in the summer or else put up mo-  
bile signs over empty seats. Then  
we'd all be happy and I wouldn't  
mind the fact that I can't own an  
automobile."

## WAS A LUCID EXPLANATION

Judicial Charge Which Lacked Nothing  
of Plainness and Ex-  
plicitness.

An English law journal attrib-  
utes to an American judge, down  
south the following charge to a jury  
in explanation of the differ-  
ence between a verdict of murder  
and one of manslaughter:

"Gentlemen," he stated, with ad-  
mirable lucidity, "murder is where  
a man is murderously killed. The  
killer in such a case is a murderer.  
Now, murder by poison is just as  
much murder as murder with a  
gun, pistol, or knife. It is the sim-  
ple act of murdering that consti-  
tutes murder in the eye of the law.  
Don't let the idea of murder and  
manslaughter confound you. Mur-  
der is one thing, manslaughter is  
quite another. Consequently, if  
there has been murder, and it is not  
manslaughter, then it must be  
murder.

"Don't let this point escape you.  
Self-murder has nothing to do  
with this case. According to  
Blackstone and all the best legal  
writers, one man cannot commit  
felony de se upon another; and this  
is clearly my opinion. Gentlemen,  
murder is murder. The murder of  
a brother is called fratricide; the  
murder of a father is called parricide,  
but that don't enter into this  
case. As I have said before, murder  
is emphatically murder. You will  
now consider your verdict,  
gentlemen, and make up your  
minds according to the law and the  
evidence, not forgetting the ex-  
planation I have given you."

## English as She Is Wrote.

A newly opened establishment  
in the heart of the city has sent out  
a circular of which the subjoined  
is a portion:

"Our Fabrik is fitted up with all  
the most modern and indispensa-  
ble electric machinery to the pre-  
paration and manufacturing of  
meats according to the European  
and American proceedings. Our  
manufactory is fitted up in such con-  
ditions as to guarantee our prod-  
ucts for its good quality and hi-  
gienic cleanness. They are sent to  
home if desired. We serve also pe-  
titions of sandwiches, at \$6 a hun-  
dred. Requests at gross must be  
made to the Fabrik or to the above  
said Sucursal."—Mexican Herald.

## Weakness of Sturgeons.

Sturgeons are the weakest of all  
fish in proportion to their size. A  
huge sturgeon is perfectly help-  
less if attacked by a small sword-  
fish.

There are some magnificent mothers in the world to whom  
maternity gives an added charm, a greater strength. But how few  
these mothers when compared with the multitude of women who are  
robbed of charm, weakened and broken down by the burdens of  
maternity. Motherhood is the highest function of women, and  
nature meant it to confer the highest joy. Maternity has an  
entirely new meaning to those for whom it was once only another  
word for suffering, when they have been made well and strong by  
the use of Dr. Pierce's Favorite Prescription. It cures the nausea  
from which many women suffer. It encourages the appetite, tran-  
quilizes the nerves and gives refreshing sleep. It increases the  
strength and gives great muscular elasticity, making the baby's  
advent practically painless.

"I had indigestion so bad last winter, while expecting to become a mother,"  
writes Mrs. Th. Timmish, of Yorkville, Ill. (Box 189). "I could not eat  
anything without it distressed me terribly. I took five bottles of 'Favorite  
Prescription' and three of 'Golden Medical Discovery' and went through  
with much comfort, and when baby came had nothing to suffer as compared  
with other times. It must be known that my case was a very remarkable one,  
not being over-strong and having had four children within less than three  
years. I was so weak and run-down I could hardly drag around. You may  
judge how well I am now, being left entirely alone with five children, of whom  
the eldest is four years, and can do all my work. I am happy, indeed, for I  
love children and do not care how many I have if I can be well."

Walter Wellman, a singer up the situation for the Chicago Record-Herald, says Maryland, Delaware and Nevada are solid Democratic. New York, Montana and Colorado are too close to even guess at and New Jersey, West Virginia, Connecticut, Indiana and Wisconsin are likely to go for Roosevelt, but he adds "conditions may be changed before the election." The Democratic states have 166 votes, the three very close ones 41, leaving 34 more votes to be picked up from the doubtful column.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Send for testimonials. Address: F. J. Cheney & Co., Toledo, Ohio.

**BETHEL COLLEGE NOTES.**

Written for THE KENTUCKIAN.

The session opened with more pupils this year than ever before, and we anticipate a very successful and happy year.

Miss Viola Williams has returned from St. Louis.

Miss Jane Garrett spent Sunday with her parents in Pembroke, Ky. Miss Vera Hughes, of Decatur, Alabama, was the attractive guest of Miss Alexander last week.

Misses Lucy White and Susie Boyd, after a week's visit to the fair, have resumed their studies at Bethel.

A great deal of interest is being manifested in athletics this session. Both pupils and teachers are very enthusiastic. Two tennis clubs have been organized. In honor of our college colors, we named our teams the "Blues" and the "Golds."

Miss Mayna Hughes, of Greenville, Ky., was elected captain of the "Blues," and Miss Alexander, of Middleton, Tenn., captain of the "Golds." Tennis tournaments will be held every Saturday.

Miss Lillian Eades was the guest of her sister for a few days last week.

Misses Adcock, Butler, Maddox, and Stowe spent Saturday and Sunday with their parents.

Miss Grady Coleman, to the regret of her many friends, has been ill for the past few days. We hope for her a speedy recovery.

Our Kalozetic Society had the pleasure of enrolling a large number of the new girls as members.

We hope to spend many pleasant afternoons among books and their authors. The Chimes' Staff has been arranged and we promise to our subscribers a very interesting paper.

Miss Alice Stringer, of Hamilton, New York, arrived last night. We are glad to have her as one of our pupils.

**PROMINENT ACTORS.**

Both English and American, Will Appear in Cast.

"The Sign of the Cross," with all the magnificent scenery, costumes and appointments that did so much to make the play conspicuous among the elaborate productions of the New York season when it appeared at the Knickerbocker a few years ago, will be the attraction at Holland's Opera House next Monday night, Sept. 26. The company is composed of well known actors, many of them members of William Greet's London company which until this year has been the only organization playing the piece in this country. This year the American rights are owned by Mr. Fred Berger, who was so long identified with the tours of the late Sol. Smith Russell, and he has spared no expense to make this the most elaborate and beautiful scenic production of the piece ever given on this side of the Atlantic. Twenty-two prominent English and American actors will appear in the cast.

Cumberland Telephone Company Is Getting Scared Up.

Sends Out Comparison List, Which Is Promptly Answered By the Home Company.

The city of Hopkinsville was flooded on the 21st inst. with a supposed comparative list of subscribers of the Cumberland and the Home Telephone companies. To begin with, in order to attempt to make a showing for themselves they listed 399 subscribers that are not in Hopkinsville, and in addition thereto, listed over 45 names that have no Cumberland phone at all, which fact can be proven, absolutely, to any one's satisfaction in a few hours' time.

The Home Telephone Company, therefore, according to the Cumberland telephone company's own statements, has more phones in Hopkinsville today than it has, although the Home Company has only been in operation for two months. While the Cumberland company has been here so long that its franchise has expired and it is now attempting to operate without any.

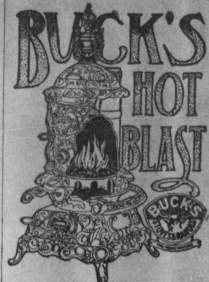

If the Cumberland Telephone Company wanted to be fair, or wanted to give a fair comparison, why didn't it publish a comparative statement of the territory we have built over? Why did they have to add on all Christian county in order to make a showing? Why did they have to publish a lot of "dead ones" in the city? Why so cowardly, Mr. Cumberland? It has only been a short time back when you called Pembroke, Lafayette, Gracey, etc., foreign exchange, and if a Hopkinsville subscriber happened to want to talk to any of those points, and had strong enough lungs to be heard over your lines, it cost him from 15 to 25 cents every time he made the attempt. If he wanted a monthly rate, with county privileges, it cost him \$4.15. Those were times too when the sworn value of your property was only from \$5,000 to \$8,000, although you were collecting from the people more than twice that amount every year in rents.

After the Home Company purchased the franchise you refused to purchase one, (although you admit yours expired in 1902). You attempted by every unfair method known to keep the Home Company out, and above all things, to keep us from building. After we began our construction and you realized there was no use in trying to run a bluff any further, with your rotten and out of date equipment, you at once went to work and attempted to improve your service. In 1902 you said that you could not afford to improve your service unless you increased your rates, and furthermore you would not accept or tie yourselves up to any franchise rate. Since that time you have changed your mind and would be glad to do anything, for the time being, if you could only rid yourselves of competition so you could put your rates up to any price you might name.

You said some time ago that owing to increased and improved service, you could afford to reduce your rates. In Nashville, where you give a still larger service, you had to raise your residence rate to \$4.50 per month, but of course Nashville has no competition, and you need the money.

Down at the bottom of your comparative sheet you say if there are any points where the Home Companies are doing business and have Bell competition, you would like to know where the Home Companies are in the lead. For the benefit of your patrons, we ask and then dare you to publish a comparative list of Jackson, Tenn.; Winchester, Ky.; Mt. Sterling, Ky.; Morganfield, Ky.; Fort Wayne, Ind.; Indianapolis, Ind.; South Bend, Ind.; Logansport, Ind.; Toledo, O.; Lima, Ohio, and many more, if the above are not enough for you.

We will also donate to any char-

Just imagine a heater that will get the same result out of one 1-4 ton of the cheapest kind of soft coal as a high price bad burner will with one ton of hard coal.

That is what is claimed for the Buck's Hot Blast, and in order to prove it we are going to give a demonstration in front of our store on

**September 20, at 9 O'clock.**

We are going to show that 38 per cent. of gas and smoke in soft coal can be, AND IS USED as fuel in this wonderful heater. If you have any idea of buying a heater, you should call and let us show you a Buck's Hot Blast. It is just exactly what you want. See it on exhibition in our window.

**GEO. W. YOUNG.**

It is a habitable institution in Hopkinsville \$500.00 in cash if there are not 50 per cent. more independent phones in the three states of Kentucky, Ohio and Indiana, than have all the Bell companies combined.

Any person not on to your method of business would think from your list that you had connection with every fireman's residence in town, when as a matter of truth you have no such connections. You list two phones at the Acme Mills and give us one, while as a matter of fact you have 1 and we have 3. Why not publish facts? You know and every one else knows that our service is so far ahead of yours that there is no comparison, and that our fire alarm service is not surpassed anywhere in the world today. We were not afraid to buy the franchise that you refused to buy and we were not afraid to build in Hopkinsville the finest Telephone exchange south of the Ohio river today. Our efforts have been rewarded in the fact that we have today more phones in Hopkinsville than you have, notwithstanding the fact that your agent has been offering free service to various people in the city for the past 30 days. Your past and present history is known to practically every citizen of Hopkinsville and for that reason there is no use for further comment.

Respectfully yours,

### HUNTER'S HAND

Directing His District Committee at Somerset.

Somerset, Ky., Sept. 22.—The Eleventh district Republican Committee met yesterday to retabulate the Hunter-Edwards vote in the last primary, and after hearing several speeches denouncing Chairman Ernst, for meddling with affairs of the district, adjourned to

meet again this morning, when it is thought the nomination of Hunter will be confirmed by the committee, which is controlled by Hunter. The presence of the State Central Committee was resented by the Hunter men, and it was expressed in dilatory tactics.

General sentiment among Republicans of all kinds is that Hunter was fairly beaten. They are much annoyed, however, by the snarl in which matters have gotten. Content papers are already prepared by the Edwards attorneys.

Mrs. L. W. Whitlow and son, Mr. Browne Whitlow.

Mrs. F. P. Renshaw and Miss Eura Carey, who will also visit friends in Illinois before returning.

Miss Jennie Bronaugh and Miss Johnnie Forbes.

### STABLE DESTROYED.

One Horse and Much Provender Also Burned.

Last Monday night fire destroyed a stable belonging to Jailer John Boyd, on his farm near the city, recently purchased from Esq. S. G. Buckner. A horse belonging to Mr. Upshaw Buckner was cremated and Esq. Buckner lost several tons of hay, a lot of harness and some farming implements.

The combined losses amount to about \$1,000. It is thought that the building was set on fire.

### MEETING SUNDAY

At Paducah to Wind Up K. I. T. League Affairs.

Cairo is Still Beelting Over The Loss Of The League Pennant.

The officials of the K. I. T. League are to meet in Paducah Sunday to close up matters and settle all disputed points. The Vincennes Capital says:

"There will be a wholesale throwing out of games in the city of Paducah Sunday, when the league officials meet if either Cairo or Paducah attempts to change the Kitty League standing, on the grounds of protest, etc. Almost every club in the league has broken Kitty rules in the playing of games and if the constitution of the league is lived up to the letter, there will be a big change in the standing of the teams. As most of the games Clarksville played were played with the services of Pettit who is owned by Vincennes, practically all of her games would be thrown out. Long, the outlaw, played with Paducah and these games would be thrown out. The game Goodwin pitched for Paducah would be thrown out. The games in which Cross and Minor figured with Cairo would be thrown out and many others would also go. Pettit played in perhaps 100 games and if all these are thrown out there is nothing where the pennant would go nor where the teams would stand. The result of the meeting is anxiously awaited and it is expected to be the most interesting occurrence in the history of baseball."

Chief Harry Lloyd, who will manage the Paducah team next season, has signed Dummy Hughes, of St. Louis, for first baseman. He was with Cairo this year.

### BISHOP LLOYD.

Successor to Bishop Dudley Elected at Louisville.

Louisville, Ky., Sept. 22.—The Rev. Dr. Arthur S. Lloyd, secretary of the Episcopal Board of General Missions, New York City, was elected bishop of Kentucky yesterday afternoon by the diocesan council. On the fifteenth ballot the name of Dr. W. T. Manning, of New York, was withdrawn, and the sixteenth gave Dr. Lloyd the required majority.

Dr. Lloyd's life has been one of unbroken success, and his rise in the church, while composed of comparatively few steps, has been of sufficient duration to demonstrate his ability. The honors which have fallen upon him have been won by sheer force of hard work and merit. He comes of an old Virginia family, being born in Alexandria, Va., in 1855. He is married and has five children, four girls and one boy, ranging in age from eleven to twenty-two years. His wife is spoken of as a lovely attractive woman, and is said to be helpful to him in his work.

### CERULEAN NOTES.

Cerulean, Ky., Sept. 21.—Messrs. John Rogers and W. V. Stewart left with their families for Sumner, O. T., Monday where they will reside. Mr. Elijah Bryant, of Bainbridge, accompanied them, with a view of locating also.

Mr. J. S. White and wife and Mrs. R. P. Turney have gone to the St. Louis fair. They will be absent about ten days.

Dr. J. G. White went to St. Louis yesterday to spend a week at the fair. At Hopkinsville he was joined by his brother, of Birmingham, Ala.

Mr. T. W. Witty has returned from St. Louis, where he spent a week at the fair.

### Superintendent Public Works

Of Lexington, Ky., Says:

"Pe-ru-na is an Excellent Medicine."

J. H. HIPPLEGATE.

J. H. Hippelgate, Supt. of Public Works, 61 West 4th St., Lexington, Ky., writes:

"I find that Peruna is an excellent medicine especially for catarrhal affections and all diseases leading to consumption, bronchial troubles or stomach troubles. It also acts as a preventative and keeps the system in a healthy condition so that it easily throws off disease. It is an excellent tonic and a great appetizer and as a large number of those who have been using it speak very highly of its curative powers, I am satisfied that my opinion of it is correct, and that it is deserving of high praise."

—J. H. Hippelgate.  
Peruna is the remedy for catarrh. Almost everybody knows that by hearsay and thousands know it by experience. Catarrh in its various forms is rapidly becoming a national curse. An undoubted remedy has been discovered by Dr. Hartman. This remedy has been thoroughly tested during the past forty years. Peruna cures catarrh in all phases and stages. There is no remedy that can be substituted.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

## GUSHERS OF WATER.

Pecos Valley, Once Desert. Becomes a Rich Garden.

Immigration is Heavy and Farm Areas Already Sell for High Prices.

Artesia, N. M.—Residents of the Pecos Valley in New Mexico are excited by the discovery that underlying more than 600,000 acres of desert land is an apparently inexhaustible supply of water. The fame of the region has spread throughout the country, and even to portions of Europe. The water gushes from the ground wherever borings are made, and pours over the thirsty land, transforming it into a garden of almost remarkable fertility.

Nowhere in the world has such an artesian belt been found. It is a table-land encircled by hills and mountains, fifty miles long by some eight miles wide. It is destined to become one of the richest gardens in the United States, and at the present rate of settlement all the land will soon be valued at fancy prices. Recently Dunkards from Indiana and other states have purchased 15,000 acres of land near the town of Dexter, paying from \$15 to \$30 an acre. More than 10,000 persons have bought homes in the valley since early spring. Each purchase carries a guarantee, backed by the Santa Fe railroad and C. L. Talmadge of Chicago that water will spout from an iron pipe, no matter where it may be driven into the ground from a depth of 300 to 20,000 feet.

### Every Well Successful.

Scores of wells have been driven, and thus far not a failure has been recorded, nor has the flow of the wells diminished as their number increased. In Artesia alone can be seen more than a score of wells throwing their white plumes into the air. Any one of them is sufficient to irrigate a section of land. The first well was put down a little more than a year ago, and today Artesia is a city of nearly 3,000 inhabitants, with banks, school houses and churches. Around about Artesia, as far as the eye can reach, stretches a sandy desert. Further north are orchards and vineyards and fields of alfalfa, which were made by just such wells, and which could not be bought for from \$100 to \$500 an acre. Accordingly the well driving goes on, and wherever the water gushes forth there soon appears an oasis in as dreary a desert as the sun ever baked. As time goes on these green spots in the desert will run together and the transformation will be complete.

The land owner is his own landlord so far as his water supply is concerned. In other sections, irrigated from reservoirs owned by private companies, the land owner is ever at the mercy of some one else. His farm is under perpetual mortgage to owners of the water supply. In theory he can get water whenever he wants it, but in practice not always. Mayhap the river from which the reservoirs are filled has suffered an unusually dry season and the supply is short. In this event the land owner often gets water indifferently.

### What Wells Cost.

Irrigation in the artesian belt, however, is not a poor man's proposition. It takes money to bring a farm under cultivation by this system. Unless he is a large land owner his well will cost him more than his land, but it is an investment which guarantees a 6 per cent bond. A well in this valley will cost between \$1,500 and \$3,000. For the first 100 feet it costs \$1 per foot. After that 50 cents per foot is added for each 100 feet. It is becoming common for several persons to club together, buy adjoining land and drive a party well in the center. If they can agree this is an admirable scheme. In many cases owners of wells are selling water rights to neighbors, who have sufficient means only to purchase their land.

At present very few of the artesian wells in the valley are under control and the waste of water is little short of criminal. But the people of the valley are beginning

to realize that every gallon of water wasted may hazard or diminish the supply. Laws have been passed imposing heavy fines for permitting wells to flow uncontrolled.

Many persons wonder that wells were not sunk years ago. The famous South Springs with their flow of eighty cubic feet per minute, capable of irrigating 5,000 acres of land, suggested irrigation to the late John Chisum, of Kentucky. More than fifteen years ago Chisum went into the valley in search of health and discovered the South Springs. Despite the fact that they were 400 miles from the nearest railway station he secured the title to them and bought 7,000 acres of desert land. He built his reservoirs, dug his ditches and canals, planted an apple orchard and sowed alfalfa with amazing results. In 1892 J. J. Hagerman bought the Chisum ranch, after having built a railroad from Pecos, Texas, to Eddy, N. M. Later the railroad was extended to Amarillo and thence to the Santa Fe, to which it was sold.

### Best Size for Farms.

The amount of land which one man can cultivate profitably does not vary from other irrigated regions. Some persons declare that twenty acres is all that a thorough farmer needs, some prefer forty, while none place the amount above sixty acres. Irrigation in the upper valley of the Pecos has proceeded far enough to permit use of the lands in connection with nonirrigable, grass-covered plains. Of the Hagerman ranch, near Roswell, for example, about 2,500 tons of alfalfa hay are raised annually and consumed by the cattle, which are brought there to fatten from the Arroyo ranch of 27,500 acres, twenty miles east of Roswell. This method produces the finest cattle and is therefore rapidly growing in favor.

From one end of this valley to the other along the line of the Santa Fe Railroad town sites have been staked out and many of them are filling rapidly. One of the most important aids to colonization is the unrivaled climate. The valley is a table-land averaging about 3,500 feet in elevation and is one of nature's perfect sanitariums. One of the most enthusiastic converts to the valley is Jerry Simpson, "Sockless" Simpson formerly of Kansas, Jerry lives in Roswell, and when I asked him what he thought of the Pecos Valley and its prospects, he said: "I have only two regrets, and they are the bitterest of my life. One is that I did not discover the Pecos Valley fifty years ago and the other is that I have not fifty more years to live in it."—S. Glen Andrus, in Chicago Record-Herald.

### A WAY OPEN.

Many a Hopkinsville Reader Knows It Well.

There is a way open to convince the greatest skeptic. Scores of Hopkinsville people have made it possible. The public statement of their experience is proof the like of which has never been produced before in Hopkinsville. Read this case as it is given by a citizen:

Mrs. W. H. Robb, wife of W. H. Robb, machinist, employe at Forbes & Co.'s wagon works, and residing at 1029 High street, says: "I hardly knew for months what it was to be free from an aching back and the irregular action of the kidneys caused at the same time other symptoms which were distressing and oftentimes exasperating. I read about Doan's Kidney Pills and the symptoms which it was claimed it would cure seemed so much like mine that I had my husband to get a box for me at Thomas & Prather's drug store. I found that they gave me almost immediate relief and continued taking them for some time. They did me more good than all the kidney medicine I had ever taken put together, and the results of the treatment justify me in subscribing my name to a hearty endorsement of the pills."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### Musio on a Chimney.

A dozen members of Cooper's brass band, Barnsley, have given a singular performance. A chimney connected with the local Co-operative society's electricity plant has been completed, and the band were assembled on the parapet at the top of the chimney, about 140 feet high, and from their lofty stand gave a short performance.

## NEW COAL FIRM.

### Will Handle the Celebrated Rose Creek Coal.

A new firm will begin business at Railroad and 13th streets October 1st, to handle the famous new Rose Creek coal, mined near Nebo, Ky. Mr. Jos. C. Buckner and Mr. Jas. West will constitute the firm of Buckner & West. Mr. West is the well known tobaccoist, who is a part owner of the Rose Creek mine. He will continue in the warehouse business and Mr. Buckner will be in charge of the coal office. The firm will start out with the contract to furnish the Western Asylum its coal for the ensuing year. The Rose Creek coal is said to be equal to the finest grades of Hopkins county coal. The vein in the new mine is 7 1/2 feet thick and a railroad spur of 1 1/2 miles has been built to the mine from the L. & N. railroad. Buckner & West will be ready for business by October 1st.

## IN PENNANT RACE

### St. Paul Ball Team Captures the American Association Honor.

Cincinnati, Sept. 26--With the games that were played to-day the American Association Base Ball League closed the season of 1904, and there is every indication that this has been the most successful season in the history of the organization.

President J. Ed. Grillo, when seen tonight, said:

"There is not a club in the association which has failed to come out on the right side of the ledger. We have had a most interesting race, and consequently, a successful season."

St. Paul won the pennant by 63 points from Columbus, who finished only 5 points above Milwaukee for second place.

Louisville finished fourth, and Minneapolis, Indianapolis, Kansas City and Toledo in the order named.

## Situation Unchanged.

Gen. Kuropatkin under date of Sept. 21 says the situation at the front is unchanged.

The Japanese detachments are feeling out the strength and disposition of the Russian forces, and Japanese flanking columns are pressing northward. Skirmishes between outposts and patrol parties occur daily, but no engagement of importance is expected for some days.

Mr. Richards in Charge.

Owing to the continued illness of Mrs. E. Keegan, her millinery store will be in charge of Mrs. Sallie Richards, who is thoroughly up in the business in all its details. Mrs. Richards extends an invitation to all her friends to call and see her.

Mrs. Ida Allen Kennedy will have charge of the trimming department.

## New Contracting Firm.

Messrs. John D. Thompson and Ed. H. Hester have bought out the Benson Contracting Co. and will operate the business in the future.

The style of the firm name will be Thompson & Hester. Both young men are popular and are master mechanics, having been with the Forbes Mfg. Co. several years.
